

# FLEET Fueling Systems

## Quality Manufacturing

From in-house engineers to a certified manufacturing staff, Westmor's team is trained to design and build maintenance-friendly, trouble-free fuelers.

- ▶ Welders certified by the American Society of Mechanical Engineering
- ▶ High-quality DuPont Imron® Elite paint stands tough to corrosion

## Education and Training

Our detailed, on-site training classes, is our commitment to improve your efficiencies and the safety of your staff.

- ▶ On-site training at your facility provided with each system installation
- ▶ Advanced manuals detail each component

## Engineer/Manufacture/Construction

Westmor's teams are experienced, trained and certified to assemble the most complicated projects from beginning to end.

- ▶ Site investigation and evaluation
- ▶ On-site design and engineering staff
- ▶ Complete tank installation

# Fueling Systems

Jet A and Avgas Fueling System

# Self-Contained Fueling Systems

UL 142, Flame Shield, Fire Guard Tanks

# Alternative Fueling Systems

Up to 50,000 Gallon Tank Capacity of E85 or Biodiesel
